Q. How Can I Hack PUBG? (Use Quora Account - 1)

Answer - Use Quora Account - 2

PUBG hacking, this might sound fascinating for some people but in actual reality how much potential this term has? Let's find out here.

=====Add 1 PUBG Game Image Here=====

The answer is Yes. It is possible to some extent. Actually, there are numerous types of Hacking.

It can be hacked on both Android and iOS. As both of these offers the same flaw. Android devices are rooted and iOS devices are Jailbroken. But it can only be hacked if the device is rooted otherwise you won't be able to hack it.

Same with iOS too. The best OS for instant hacking is Android. Android is very easy to design for and also it even has emulators for PC. On the other hand, Apple has a bit strict policy regarding their apps on apps store which eventually makes it harder to get hacked into iOS.

=====Add Any Basic YT PUBG Tutorial Video Here=====

I find a website and it has hacking tool for PUBG Game for free. You must check it out today at - www.example.com (Add Your CPABuild Game Hack Offer Link)

How to Make \$1,000 per Month from One YouTube Video

Instant YouTube Ranking - Rank Your Video #1 In YouTube & Google - The Unlisted Method With My Twists.

Many people were asking me about this Instant #1 Youtube Video Ranking Method, it always been here, it always worked for me, i made over \$1000+ Per Month with Webhosting, Clickbank, CPA Offers, CJ Affiliates From This Method. If you do this correctly then you can make the same/more money within a month. The best part is you don't need a website just use your affiliate link in the comment section and pinned it to the top.

So let's get started...

Requirements:-

1. Join CPABUILD Network - CPABuild.com. And Join OGAds Network - OGAds.com
2. An Affiliate/Business/Service/Promotion Video (Download High Quality Related Video Of Your Niche From www.dailymotion.com And Upload it to Youtube - Make Sure It is not already uploaded on Youtube.)
3. Your Website/Affiliate link should be directly related to the video, high search volume keyword to target large audience.
4. Buy Fast High Retention Youtube Real Human Views From This Guy Or From MSP Panel - bit.ly/2S5NVcV

Step By Step Process:-

1. Upload the Video in Unlisted Mode (you must set it BEFORE you upload) the video should not be public NOT even for a second!
2. Your Title Must Have Your Main Keyword For 2 Times. (Example - Pregnancy Miracle - My Honest Opinion About Pregnancy Miracle Book)
3. You should have a Description that looks like this:
 - A. (Description - 500 Words Article - Copy Paste It From Anywhere)
 - B. (Insert Keywords - Upto 5)
 - C. (Insert Title Here Again)
 - D. (Insert Your Youtube Video Link Here)

4. Add Your Affiliate/Website link in the comment section and pin that comment so it will stay on top, don't add your link in the video description.
5. Start Youtube High Retention Views (Get 2K-20K in 24 hours - Depends on your niche competition) it shouldn't cost much nowadays. The YT Views traffic retention MUST be at least 75% from your video, so if it's a 2 min video get 90s retention views (Note: Do not use mobile bot views, it has to be Real human views)
6. After Buying High Retention View Buy This Service So Your Video Will Look Natural To Youtube - bit.ly/2zUPBil (33+ Youtube custom comments + 33 Youtube Channel Subscribers + 33 Youtube Shares And 33 likes within 12-24 hours)
7. After 48 hours go to youtube and change the video status from UNLISTED to PUBLIC, and hold on for 15 minutes. After 15 minutes, you should see the results of your video on #1 Position if you followed every step as i mentioned!

My Thoughts for This Method:-

This is a very popular Method but with My Twists, it's not a TRICK. This is how youtube determine if a new video gained traction fast over the network, the NEW video effect is on, for youtube all the traffic got to the video "at once" at the same exact moment you switched the video to public, it may stay there for a while it may move up it may drop down, i can't really know what youtube decide over it and how they are going to index it.

Note:-

1. Video Length Must Be between 2 Minutes to Upto 1 Hour And It Must Be at least 720p in quality.
 2. If you see your video on #2 or upto #20 then order more high retention views.
 3. You can also Order GSA Backlinks Blast From This Guy To Push Your Video on #1 Position On Google & Youtube - bit.ly/2xRVsDD (Recommended)

11 Ways To Grow Your YouTube Channel And Make Money From Google AdSense

1. Always Choose A Eye Catching & Attractive Thumbnail.
2. Make your Title Short (50 characters or less) and Interesting And ClickBait. (Try to add words which are really famous or have high searches. For Example - If you are a Vlogger visiting Paris Then Use Your title like this - "Eiffel Tower - Why Tourists Love This Place In Paris?")
3. Pick High Searches Related Tags that will be Good for SEO And Views.
4. Write a Good Video Description. Aim to write video descriptions that are between 300-500 words. This is long enough to provide a detailed description of your video, but short enough that it won't be overly burdensome to read.
5. Try keeping your videos to around 3 minutes. Research by Buffer Social shows the ideal length of a YouTube video is 2 minutes and 54 seconds.
6. Upload a transcript of your video in English.
7. Post early and often. If you have lot of content then post daily if not then post on Fridays so you will get more views on Saturday and Sundays.
8. Tell something interesting in the beginning of the first 15 seconds of your video so people will hook up till the end of your video.
9. Create spin-off videos to capitalise on trending content. Take advantage of popular and trending searches by creating videos that will rank for these trending keywords. Google Trends (<https://trends.google.com/trends>) can help you figure out which ones to target.
10. In the end Add subscribe button and tell everyone to Please subscribe to your Channel And Watch other videos and share them as well to support the channel.
11. Follow - "Monkey See, Monkey Do" Saying In all your Youtube videos. Whenever you post a video Buy 100+ Youtube Video Likes (Service Link - bit.ly/2FCTnBQ) ASAP. So when new visitors will see your video and see 100+ likes they will Like your video too. This is human psychology.

The goal of a video is to be seen. By taking a few small steps, you can dramatically increase the number of people who watch your video and want to engage with your organization, without spending extra money on digital advertising.

So Let's Get Started...

Now the process of ranking a CPA website is no different then ranking any other website so if you have some basic understanding it will definitely help.

But if you don't know anything about SEO or ranking website that's not a problem because I will explain everything you need to know to rank in this post.

So first, let me state all the points I will explain –

- A. Choosing a keyword + Competition analysis for the chosen keywords.
- B. Basic site setup and structure.
- C. Content generation for the website.
- D. Backlinks, SMO, and On Page & Off-Page SEO
- E. Some bonus tricks to outrank other websites.
- F. My final thoughts on ranking a CPA website.

=====

A. Choosing a keyword + Competition analysis for the chosen keywords for your CPA website-

Choosing a keyword is definitely the first thing everyone has to decide for the ranking process. Now, choosing a keyword can be done in many ways and there are different software and services available for that process. So here are some basic steps for CPA website keyword research.

1. Decide a niche you want to rank for, in this example, we will go for game hack niche as it most famous in CPA.

2. The keyword of the popular game to rank for. The process starts with a simple google search

.

Name of the game + hack

Name of the game + cheat

.

Now, take a look at the top 3 websites ranking.

=====

B. Time to Analyze these websites.

For analysis purposes, you can use different software like Moz site analysis tool. Now there are things to look for in deciding if the top 3 websites are easily outrankable or not.

1. First is the amount of content on the website

2. Backlinks to the website

3. Age of the website

These are most of the time enough information to decide if it is a good keyword to rank for.

Now go point by point on-site analysis factors –

1. Content on the website – As with time google definitely promoting longer pieces of material and the 1000 words minimum is not gonna cut.

In the case of CPA game website just check the amount of content first rank website has and have at least 2 times that on your website. We will discuss content in very detailed later.

2. Backlinks – this is probably the best indicator if a website is new or an authority site, but with experience, anyone can tell just by looking at a website if it is an authority site or not.

As I told before there are tools to know backlink count Moz bar, Semrush, SEOquake extension etc.

Age of website – it also plays a very important role in ranking but there are ways to get around it but if a domain is old and have a good reputation they are easier to rank.

We will discuss this aged domain, PBNs, parasite pages to rank etc further down the post.

=====

C. Content generation for the website and on-page SEO –

Content generation is probably the thing that most people struggle with. But before that, we will discuss the structure of your website.

SILO structure – this is basically how many pages and posts will your website have and how they are connected.

Now the Content Generation – if you can write decent content, then you will do alright. Just prepare to write huge amount as I said before, 2-3 times your competitor.

Now once you are done with content and structure, time for on-page SEO. Do this while you are writing the content and then publish it. Tool - <https://seorch.eu/>

Now once your website is done send it for indexing on multiple search engines. Use any free indexer/pinger to ping search engines.

In google add your website to search console and do fetch from the panel and also submit a sitemap of your website and your website will be indexed within 2 days.

Now wait couple of days and then after your website is indexed, start the off page SEO.

=====

D. Backlinks, SMO and off-page SEO – Either do this by yourself or hire someone to do it for you

For the off page start with social signals like from facebook etc. You can buy them at very cheap here – bit.ly/2LKixN4

Go slow with the off-page stuff as you want it to look as legit as possible.

Then the Backlinks – Just buy some good quality backlinks and also for this go very slow. You can buy them here in this order with 5 days gap...

1. All In One SEO Link Building Package - bit.ly/1hfdR2I

2. Blog Comments From These 2 Sellers –

bit.ly/1hfeVmO (I Buy this 1 Time for 1 Website)

bit.ly/1SVydcF (I Buy this 2 Times for 1 Website)

3. Do-Follow Forums Profile Links -

bit.ly/2y4Bubp

4. Niche Related Blog Comments -

bit.ly/2tc8RUD

The ranking of a website can take some time so be patient and keep working. But you will see results from the very first day if you follow the full guide.

Now PBN – do them carefully because google does not like this at all. So i highly recommend you to follow 90/10 ratio for PBN.

I would recommend you to make them your self or outsourced with a good seller.

FINAL STEP - 5

<http://bit.ly/2F4vzSf> (I Buy this 2-3 times - 10 Days Gap)

Note- De-indexing of a CPA website, DMCA claims and stuff like that can happen in the CPA gaming. If that happens then do message me on FB. I'll help you to revoke your Google penalty within 10 Days.

Indexing - Use a Paid indexer or Do Tier 2 GSA Blast For Indexing all Your Backlinks - bit.ly/2xRVsDD

=====

E. Some bonus tricks to outrank other websites –

The bonus trick is very simple but very very effective. It is related to youtube, so here are the steps –

Once you are done with all the above steps then record your screen working on your website and make a video of it.

Like a tutorial.

Then buy/create a youtube account.

Then upload the video and link to your website from the comment section and pin the comment.

Do not put the link in the description put it in the comment only and pinned it after that.

Then send some views to it 2000-3000 views, likes, and comments.

YT Views - bit.ly/2NQ6YcA

YT Likes & Shares - bit.ly/2y2Fo1f

By doing this there is definitely more chances of you to make money from the very first day.

This trick always works for me but the only requirement is a good keyword.

=====

E. My final thoughts on ranking a CPA website – As good as CPA website ranking is and you can make 100+ dollars a day with this, try to use this for Whitehat CPA niches also because they live much longer than hack and cheat keywords.

Ideal CPA Website - <https://freeboxlivecodes.club/>

I hope you found this post really useful and now the next step for you is to GET STARTED and MAKE MONEY FROM CPA. If i can make \$100+ a Day from 1 Website Only Then You Can Also Do That With This Exact Method.

I attached my CPA earning screenshots (Fortnite Website) so it will motivate you to earn the same \$100+ Per day amount or better.

Make \$1500+ Per Month With ClickBank

Let's Make \$1500+ Per Month With ClickBank

Most online marketers know ClickBank and if you don't I'll explain exactly what it does just below...

Let's get started....

Usually people sign up, Choose out a crappy product and wonder how it can actually make sales. Then, they try to send unrelated random traffic at it and seeing that nobody bought it, about at Clickbank platform and call it crap. Sounds familiar?

But let's jump right in with a little catch up lesson, for those of you who don't understand what I'm talking about right now. I am going to explain everything from scratch...

=====

So, What is Clickbank?

While many people will call Clickbank yet another affiliate network, that's not all it is. The platform is more of a marketplace for product creators and affiliates to make money together.

=====

ClickBank Metric - Really Important To Know These Factors

Initial \$/sale: The average amount of money affiliates make per sale.

Avg %/sale - The % of the sales price affiliates take as a commission on average.

Grav - Gravity, the number of affiliates that sold this product in the last 12 weeks.

Avg Rebill Total - Average \$USD affiliates take as a commission as a result of rebills.

Avg %/Rebill - % of rebills paid to the affiliate, on average.

=====

What is a great product to promote?

Here are the things we look for when it comes to screening offers to promote:

1. Low cost initial offer.
2. Video sales pages & "native" sales pages.
3. Products with good reviews online (low refunds = more money and less list burnout)
4. Gravity 50-100 (means that the page converts fairly well)
5. Choose old stabilised product instead of new.

=====

How To Make Money from ClickBank - Top 10 Traffic Methods?

1. CREATE A PLATFORM/BLOG/WEBSITE

Create a website on your niche area. Have some well-structured niche related pages and blog posts that give a lot of value and information on the subject. You could include product reviews or articles on how to solve particular problems (example - how to get your ex back). Include Clickbank affiliate links to your product within your pages and articles.

=====

2. CREATE SOME YOUTUBE VIDEOS

Create a YouTube channel on your niche and create at least 10 short punchy, informative videos. They can include "how to", product reviews, "10 ways to..." etc.

If you don't want to appear in the videos you can have them made by actors on Fiverr - for just a few dollars.

It is easier to get your YouTube videos ranked than it is to get your website ranked. This is because YouTube is owned by Google and therefore it will naturally rank its own sites higher. YouTube also receives a huge volume of searches so there is a lot of traffic on there, some of which is interested in your niche area!

You can include links to your website in the description box below the videos.

You can also embed your YouTube videos in your website which will in turn get you more YouTube views and push your videos up the ranks.

=====

3. DIRECT LINKING / BANNER ADVERTISEMENT

This one is the most common and very often least profitable. The tactic is simple. Find a somewhat related article on your site and slap a banner on the sidebar or in the middle of the article, without any form of preselling the product specifically.

=====

4. IN CONTENT LINKS

In content links are usually in line recommendations that are embedded directly in the text. The recommendation often comes from the voice of the author and if they've done a good job building trust throughout the article/post, the conversion rates will be decent.

=====

5. WRITE REVIEWS

This is one tactic i still use to this day and for good reason: it works! Review traffic is extremely targeted and people landing on your page have a very high chance to buy.

If your review doesn't look completely biased, there's a good chance they'll trust you and click through your link to buy the product.

=====

6. OPT IN

Create a complementary piece of content to the article. For example, if the article is a list of tips, create 3 more tips that people can download. This can be more recipes or anything that is a continuation to the content. This way, the people that were engaged enough to read until the end will most likely want to trade their email for more.

=====

7. EMAIL MARKETING

This is where things start to be fun. As opposed to people trying to throw traffic to a sales page once and then have no chance to see those visitors again, you have their contact details!

Note: If you don't have an email marketing service yet, I recommend Aweber because it offers great automations for the really low price.

=====

8. RETARGETING

Sadly, this option is becoming more and more popular so I won't be able to enjoy it alone anymore.

Using Facebook or any other retargeting service, you can create audiences of people visiting your website (minus those who opted in from the site) and advertize lead magnets to them.

The process is fairly simple and after a bit of optimization you'll be able to let it run as people get out of your retargeting list after a bit.

=====

9. SCALING

Now that you've built the initial funnel, let it run for a little bit. Perhaps start building a second one and after a while, decide if it's worth spending more time on it.

If it's making some sales and you want to expand it, all you need to do is pick one area and expand it. These include:

1. Creating more SEO content around more keywords related to the product you're selling.
2. Link building your existing content to improve its rankings.
- 3, Using paid social to grow the traffic to your content.

=====

10 . OFFER YOUR OWN PRODUCT

When you've reached a certain scale, you should already be making several thousand dollars per month. At this point, it's time to start considering Removing the affiliate offer with your own offer and make all the money by yourself...

This will allow you to keep all the money coming in and control things.

=====

Conclusion -

ClickBank is a great, simple place to start replacing things such as Google AdSense or Amazon revenue for real sales. It tends to generate much more revenue.

=====

Note :-

1. ClickBank Beginners Tutorial - <https://www.youtube.com/watch?v=Q3XAm4zgXX4>
2. Start with "Make Money Online & Health Niche" Products to promote. They are really easy to promote for newbies.

3. If you are unable to create an account at ClickBank then use Clicksure because both are almost same.

4. Promote recurring products if you want monthly payments from one time sales...

5. Use Facebook Paid traffic Or Google Ads Traffic cautiously. They might ban your account for promoting ClickBank Products.

I attached one of my CB accounts screenshot to motivate you... So let's get started with ClickBank and start making money today...

How To Choose A Clickbank Product to Promote And Make Money - An Expert Guide

People often ask me which Clickbank product they should be promoting. Half of the time I just give them a strange look because there are just so many things I need to explain in order to answer what they think is a simple question.

I used to delve into the importance of selecting their niche, passion, doing what they love and all that. And they would stand there with their eyes slowly glazing over.

They're not interested in learning. They just want to know the answer. Immediately.

The problem with asking a vague question like "which Clickbank product should I promote?" is that you expect the answer to be a certain product. It doesn't work that way. If that were the case then I could just go around giving the standard answer to promote my products. Why not?

Because if your niche is in infant care, what are your customers going to think when you try to sell them a full guide to monetizing a blog?

I assure you that conversions will be through the floor, into the basement and tunneling all the way to the land down under. ;)

The better question to ask is HOW to select a Clickbank product to promote. Now this I can definitely help you with. It's not as cut and dry as it may seem.

First let's talk about Clickbank. For those of you who are new to Internet marketing, Clickbank is the largest online marketplace for digital products. It connects vendors who create products, to affiliate marketers who will promote and sell them.

There are thousands of products on the marketplace in every niche you can think of.

One of the great things about Clickbank is that they provide safe and secure payments. Which is why their database of affiliates is massive.

So with thousands of products to choose from, how do you select a Clickbank product to promote?

Here are my Top 5 Tips for Clickbank...

=====

1 – Gravity and Filters

Many first time affiliates just get lost in the Clickbank Marketplace due to the sheer number of products available.

By default, the results are displayed by popularity. However popularity doesn't necessarily mean sales and conversions. So on top of looking at popularity, sort out products by gravity. This measures how many unique affiliates have successfully sold the product within the last 12 weeks.

I wouldn't recommend trying to promote a product that has very low gravity. This pretty much means that no one is buying it. So choose 50-100 gravity if this is going to be your first project.

Another way to narrow down your search is by using the "Filters" tool provided by Clickbank. This allows you to filter results based on different factors.

Examples of how to use "Filters" to improve your results include:

- A. Selecting a minimum and maximum gravity score of products.
- B. The initial \$ per sale to see the amount of money you would earn.
- C. The average Rebill total will show you how much you could make from recurring payments (I'll get into this later)

=====

2 – Look for Longevity

A high ticket item may give you a large commission payout straight up, but if it's a one-time sale, then that's all you'll be getting. Instead seek out products that serve the customer on a long term basis. I'm talking about Rebills.

These are recurring commissions that will go to your account every month for as long as that customer continues making payments.

Now this is true passive income.

You can make one sale, then months and even years down the line, you can still be profiting from that initial sale. Without having to do anything.

=====

3 – Checking Out The Backend

Everybody loves a good backend. But no one really understands the value of a backend better than a smart affiliate.

Before you commit yourself to promoting a certain product, first go through the vendor's sales funnel.

You want to get the most out of a product. And by doing this you need to know exactly what the sales funnel is. Check for upsells and pricing. Look at the sales pages and value of the one-time offers.

Ask the vendor directly or check out the provided affiliates page. The top vendors will let all their affiliates know exactly what the product is about and whether or not there are any upsells.

And that brings me to my fourth tip.

=====

4 – The Affiliates Tools Page

Any vendor worth their salt will provide an affiliates tools page. To make your life easier, promote products where vendors offer such support. As it is, there's a ton of work that needs to be done in order to set up your campaign and reach potential customers.

So take advantage of the affiliates tools pages by using the professionally designed banner ads, keyword target lists, free reports to give away, email swipes and more.

This will make your work flow more efficient and it'll be so much easier to do your pre-selling before sending your reader to the landing page.

=====

5 – Contact The Vendor Directly

I'm not too keen on people who write reviews for products they haven't even seen, let alone used. By doing this you could lose the trust and respect of your audience, especially if they eventually buy the product through you and find that your claims were false.

That's why I suggest contacting the vendor directly and request for a review copy. Alternately you can buy the product directly. Test out the product and see how the vendor handles customer support. This will give you a clearer picture of whether or not you really want to promote the product. Keep in mind that if you promote a product that turns out not to be very good, it can end up hurting your reputation and erode your relationship with your audience.

=====

Final Tip - Start With 1. Make Money Online Or 2. Health Niche Products These 2 categories converts really well.

Learn How To Make Money with Hubpages? (Let's Make \$300 To \$1,500 Passive Income For Your Life)

When it comes to online publishing websites, not many players get as big as HubPages and Squidoo. (On August 15, 2014, founder Seth Godin announced that HubPages had acquired Squidoo.)

It has been around since 2006, so it is not some emerging star in any sense. The site is well established and pays its writers, still, it continues to attract and in need of new writers.

=====

Can You Really Make Money on Hubpages?

The promises they make to aspiring writers are that they can make money writing articles online for Hubpages and I find the claim to be completely reasonable, but you must hold a realistic expectation; the site is not out there to create instant millionaires out of writers, but new recruits can expect regular and decent income with their writing skills.

How Much You Can Make In A Month? Read More Here - <https://hubpages.com/.../The-Highest-Paid-Hubbers-Make-650-to...>

=====

How Does HubPages Work?

In short, this is the place where they publish articles from writers.

Articles, in this context, do have a broad definition here.

They accept written work as short as a standard article, and also extended descriptive work, such as a one-page website.

Ultimately, the choice falls on the users.

On Hubpages, an article is referred to as a "Hub", and this hub could be just about anything. Writers could create a hub to talk about the 10 most inspiring comic heroes in the Marvels publications, grant introduction of oneself, or even some wacky ideas to preserve the earth.

While it is true that you'll need to be somewhat comfortable with words, but the job does not necessarily call on impeccable writing skills. People whose writing skills, let us just say that fall into that borderline category, have achieved fame here.

A characteristic that is definitely helpful is your inclination to say something about most of the things around us. It is a good platform to reach out to the mass, and you may just get lucky and garner a significant following from this site, which would lay the foundation for successful blogging.

=====

How Do You Get Paid with Hubpages?

A number of options actually exist (Placing Amazon Ads Link and eBay Affiliate Links and Banners, Google AdSense, etc), but the one I find most helpful is Google AdSense.

You will still need a hub to be published on the site. After which, you go on with your AdSense ID installation, now you are ready to share revenue with Hubpages for your work published there.

If somebody clicks on the ads that accompany your article, you are entitled to that share of revenue (my guess is ~60% now).

=====

Step By Step Start Guide On Hubpages:-

If you figure this could be something that may work for you, do the followings and you are ready to make some money.

1. Sign up at Hubpages.
2. Sort out your first article and get it published as a hub. (Try popular trending niche or evergreen how to articles...)

3. Apply for an AdSense account (if you don't have one). Be prepared for Google to take a few days to approve it.
4. Attach your AdSense ID to Hubpages. As you get on to the accounting settings on Hubpages, you click the "Affiliate Settings" link. Follow the instructions on how to install your AdSense ID.
5. It is done. When readers click on the ads or buy from your referral links, you get a share of revenue.

2. Create Good Content

Suffice to say, more content is always better than less content. Try to make an effort to create at least 500 words hubs. If you can help it, go for the 600 — 1500 bracket.

And if you can afford the time and effort, furnish the blog with bells and whistles. You can conduct a public poll among your audience, incorporate news widget, etc... However, know that the last option is more complimentary rather than necessity, but it is a proven approach nevertheless.

=====

3. Build Backlinks (Very Important)

Another useful tactic involves getting links over to your hub. The originating links could be from your own blogs or other sources.

3. What is Craigslist?

Craigslist is a website that gives its users a platform to post ads in different niches like selling stuff, job offers etc. I am gonna discuss how to monetize but before that, I'll tell you some things you need to keep in mind before you need to know to implement it safely.

=====

4. Cautions while using this method

In any method used for CPA marketing, there is definitely some risk involved because High traffic websites hate CPA offers. So you need to be careful before posting your direct CPA link on any website. (Use url Shortners OR Cloaking.)

Now that we have got that clear let's start the process.

=====

5. How to start implementing this method –

1. Start with creating an account on the websites.
2. Then select the niche you want to target.
3. You can start with job ads because they convert the best or you can use iPhone/Xbox/PS4 method. (We'll talk later about this)

Try to write a very good and legit sounding ad (or copy someone else ad with modification) and then put your contact email. Next, you can start with chatting with the people showed interest in your ad via email.

Then as you should be targeting US popular cities (Or Any 1st world country such as Canada, UK, Europe, Japan, Singapore, New Zealand, Australia Etc) in craigslist then you will ask them to complete small CPA survey and to share that link with other people to make them fill to qualify for the job or to get the iPhone. You can take any survey offer for the USA or other countries from OGAds Or CPAbuild.

=====

So Your Job Post Title should be :-

"Earn \$120 Per Day For Data Entry Work - 2 Hours Work Daily Required"

Or Use iPhone X/iPad/Xbox/PS4 Method...

"I Need \$250 - Selling My iPhone X Urgent - Mint Condition - Original Bill Included"

=====

Your job requirements must be getting over 500 people to fill the surveys and You will definitely get 500+ response for your iPhone X or Similar gadget ads because you are selling \$1000 worth of gadgets for \$250 only.

Then there is the trick using a survey that pays at least \$1-\$2 per lead and you will be making at least \$100+ in one day.

=====

5. Tools and software needed to use this method –

1. Use a good professional looking email id for your contact.
2. Some people use the auto poster for the craigslist but you do it manually as it is very safe.
3. Next, you can use Proxies/VPN if you are having issues with a posting of creating ads because of location. (Try This Chrome Plugin - <https://chrome.google.com/.../oofgbpoabipfcfjapgnbbjjaenockbdp>)
